## MRS. HENRY T. TITUS DEAD.

Mrs. Titus, wife of Henry T. Titus of this city, died at the residence of her sister, Mrs. F. S. Shad in Jacksonville last Saturday, after a long and painful illness. The deceased was born June 12, 1870.

While a great sufferer for several years Mrs. Titus bore her affliction with a fortitude and resignation that was remarkable and almost until the last breath her face, wreathed in smiles, indicated a sweet and lovable nature and told of the confidence of a surcease of sorrow and suffering after life's fitful hour.

The funeral services were conducted by Father Barry from the Church of the Immaculate Conception at Jacksonville Sunday. The interment was in Evergreen cemetery.

Mr. Flagler is at the head of several railroad companies, and one of his standing orders is that no Indians shall pay fare on any of his roads. There are about 600 Seminole Indians in Florida, and they live along the Flagler railroads. The whole territory on which they reside was once the property of these Indians and it is said Mr. Flagler does not believe they have been treated by the whites who appropriated their lands to themselves altogether in a spirit of fairness. At any rate the order referred to will recompense them in some little degree.

## MOONSHINERS AT LAKE HELEN.

Perhaps the first illicit distillery ever apprehended in Volusia county was captured Monday by Sheriff Turner at Lake Helen, and the operator, a Negro named Jim Peoples is now in jail waiting trial by the criminal court.

From the evidence adduced at the preliminary hearing before Judge McCrory Monday it appears that the still has been in operation for a considerable time, and that a thriving business was carried on among the Negroes employed at the turpentine camps.

Peoples' apparatus was crude and unique in the extreme, but he succeeded in turning out a product that will "make drunk come" all right, and turned it out in considerable quantities, too.

The still consisted of a five-gallon jacket oil can with the wooden jacket removed. At the top of the can a hole was punched in the tin and in this hole an ordinary half-inch pipe was inserted. The joint was made tight by a donb of clay. This pipe answered the purpose of a "worm" and from the can passed through a trough of water at the end of the pipe that led the vessel into which the distilled spirits flowed.

Peoples made his "mash" out of any old thing. The principal material used was Perma ground feed. He would occasionally use cornmeal, wild plums, sweet potatoes, but Perma was his stand-by.

In addition to the still a winery was operated. This wine was made chiefly from the wild hog plum, and molasses. The produce of the still and the wine rats must be pretty fierce stuff to drink, but there can be no question as to the alcohol contained in the mixture. A piece of paper dropped into the distilled article, when touched by a match flashed up like gun powder, burning off the liquid and leaving the paper intact.

The sheriff discovered five barrels and about twenty jugs partly filled with the distilled liquor and the so-called wine. Deputy Sheriff Edwards drove over to Lake Helen Wednesday morning and brought the stuff to DeLand to be held subject to the order of court. Peoples was committed to jail in default of a \$300 bond to await trial by the criminal court.
